FRIDAY NOVEMBER 6 1942

NUMBER 28.

Funeral Services For Chauncey Bacon

Funeral services over the remains of Chauncey Bacon, aged 71, who had been a resident of Raymond for 40 years were held in the 2nd Ward Church last Friday afternoon with 1st Counselor W. A. Heninger in charge. Jos. McLean conducted the choir with Mrs. Emma Dahl at the organ.

Speakers were Bishop L. L. Palmer, Bishop J. O. Hicken of the 1st Ward and Elder J. W. Evans. The opening prayer was offered by Pres H. S. Allen and the benediction by Rulon Dahl of the Second Ward. Bishop Jos. McLean sang "Goin' Home" as a special request number.

The speakers spoke of the labors of deceased during the pioneer years of Raymond when he had done his full share in building up the community, and for years was Raymond's coal dealer, living at that time in the house now occupied by W. G. Rouse. Mrs. Bacon had always been a Church worker, especially with the children, and deceased had always assisted her in the carrying out of her duties. All the speakers paid tribute to the fine virtues of deceased.

FACTORY OFFICIALS IN UTAH

T. Geo. Wood, Frank Taylor, and W. H. Fairfield of Lethbridge were in Idaho the first of the week inspecting the work of machinery in the beet fields, making this trip especially to watch the toppers at work.

Experiments are being made in the Western States with various mechanical devices for reducing the hand labor in the beet field. Mechanical thinners and blockers are being perfected to the point where they are deemed practical. The toppers, according to Mr. Taylor work quite satisfactorily when conditions are just right. Toppers working this week when there was a layer of frost in the top of the ground were not functioning very well, and Frank said they were more undecided now than when they left about their feasibility for Alberta beet fields. He said that we were unable to control conditions and that we had to harvest in all kinds of weather conditions. Whether mechanical toppers in their present condition were what we wanted here was hard to say and the question is still under study & investigation.

The party arrived home Wednesday evening and were just in time for the Rotary luncheon and meeting with District Governor Roy Davidson.

WEATHER UNSETTLED— HARVEST DELAYED

The weather has been serving up some freakish serves during the past ten days. Flurries of snow set in with all the appearance of a real three day storm, and after half or three quarters of an hour the snow stops, and things quiet down again. Monday was quite cold following a bluster Sunday night, and Monday evening for awhile snow fell heavily. Tuesday the sun was shining and by sun down Tuesday afternoon practically all the snow had melted and disappeared.

Beet digging is not finished, although there is a small tonnage only left. Growers in the main are just on the tail end of the beet harvest. Beets in storage at the Factory are causing some trouble, the woody and wilted condition of the beets when dug being bad for storage. The spots are being segregated as quickly as possible and processed to keep the damage from spreading. Because of the heavy frost each night, the Factory receiving sheds are not accepting any beets only as they are freshly dug from day to day.

There is still considerable stock threshing to be done, but the blusters of snow have made the grain too damp and tough for this. A couple of days of clear weather, even if it were frosty would give farmers a chance to get the odds and ends of work cleaned up. However, it seems if the fall stays open until Christmas, there are still a dozen and one jobs we should like to get finished and out of the way before the winter really sets in.

Mrs. O. H. Snow is enjoying a visit from three of her sisters from Utah and Nevada. They arrived in Raymond last week.

Henry Piegrass, who will be in charge of the Locker Storage and processing of meats at the Cheese Factory is here, having commenced work on Monday. Make use of your lock or now and see how convenient it is.

If you are interested in our Clubbing Offer, we suggest you act now. Just what changes may be necessary in the next 30 days no one can tell. The present offers still hold good.

RAYMOND VETS TO HOLD BIG ARMISTICE DANCE WEDNESDAY NOV. 11

Arrangements have been completed to entertain the public of Raymond and District at the Big Dance of the Season. The local Legion have engaged The Anderson Sisters to play at their Annual Armistice Dance on Wednesday Nov. 11th, in the Raymond Opera House.

The proceeds of this Dance are to secure finances to enable the Legion to forward the Xmas Hampers to the Boys in the Service, and it is hoped that a large attendance will be on hand. 52 parcels and hampers have already been sent to Raymond boys now overseas.

Also please keep in mind POPPY DAY in Raymond and help your local organization.

District Governor Of Rotary Here

R. R. Davidson, District Governor of District 116 of Rotary International, paid his official visit to the Raymond Rotary Club Wednesday evening of this week. All but 2 of the local members were present, and with several of the Lethbridge fellows who accompanied Governor Roy, there was better than 100 per cent attendance, and for four hours the fellows had a really enjoyable evening of luncheon, talk and round table discussion of the problems of Rotary and its mechanics.

Governor Roy centred his talk on this thought, "the big job of Rotary is to develop acquaintance as a means of stimulation and an opportunity for service in Rotary." Speaking on the various fields of Rotary, viz. Club Service, Community, Vocational and International Service, the Governor said it all came back to the individual Rotarian and his attendance at and participation in the programs and projects of Rotary. If a Rotarian is worthy of the name he bears, he will attend his meetings every week unless sickness or absence from home prevents it. He will support his officers in every way and will add his bit to welcoming new members, getting new members interested in Rotary, and in every way possible making his club a real Service Club and not a social club.

Speaking of the growth and development of Rotary, the Governor stated that despite the fact that Rotary Clubs in Germany and the Nazi dominated countries had been forced to cease, there were still 5,082 Clubs, with a membership of 210,000 Rotarians, and that between June 1, 1941 and May 28, 1942, 100 new Rotary Clubs had been formed. Rotary has done more than any other single agency to create a spirit of understanding and goodwill amongst the two continents of North and South America, and paved the way for the "good neighbor policy" now growing amongst the American republics. Rotary is in a position throughout the world to build a spirit of better understanding amongst all nations to prepare men's minds for that great day of peace we all hope will come when the present conflict is settled.

He spoke of the Rotary Relief Fund, which is created and contributed to by the various Clubs of the world so that funds will be available, made up of the contributions of individual Rotarians to assist fellow members wherever they may be in times of trouble and need. Rotary had also been recognized by international agencies, and parcels were now being sent to prisoners of war through the organization of Rotary, and reaching their objective, thereby augmenting the splendid work of the Red Cross.

Answering his question of "What can Rotary in this district do to further the war effort?" the Governor suggested that along with the efforts of the members as individual citizens, that the Club select some responsibility and see that it was done. It will give you a satisfaction that nothing else will do and will bring you closer to the boys and women in the service who are offering their all.

A Club Assembly was held following the Governor's talk and for an hour and a half the fellows asked and answered questions and discussed what could be done to better the position and the workings of the Club. President Warren Jones was in the Chair.

Double Funeral Sunday

John, aged 10, and Elizabeth, aged 3, the children of Mr. and Mrs. John Gergely, who were burned in the gasoline explosion at their home a week last Sunday, were buried in the local cemetery Sunday afternoon after a double funeral in the Stake House. Little Helen aged eighteen months had been buried the Wednesday before.

Elder C. R. Wing of the First Ward Bishopric was in charge of the service, and Rev. Molnar of Calgary, and Elder Jas. S. Anderson were speakers, both offering comfort and consolation to the bereaved parents. Dr. Molnar spoke first in English, and then spoke in the native tongue of the bereaved parents, and all present who understood his words were deeply touched by them.

Ira McBride was in charge of the singing and Roi Stone was at the piano, members of both Raymond Ward Choirs being present to assist in the singing.

The double funeral was the climax of the tragedy which was reported in last week's paper. While the shock to the parents of losing their three children is severe, and every- one sympathizes with them, it is undoubtedly a blessing that

snow fell Wednesday night again, an inch or two in depth, and the weather remained quite chilly all day Wednesday.

Mr. and Mrs. Lee Brewerton took the night plane to Calgary Wednesday evening where Lee had a business engagement.

Counter Check Books, Receipt Books, Carbon paper, etc., to fill your needs from day to day. Come in and get what you need—The Recorder.

Relief Society Conference was held in the Raymond 2nd Ward Sunday evening last when a large crowd was present and listened to a very interesting program.

the children could be taken. They were so badly burned that it would have been impossible for them to have fully recovered without being badly crippled, and while it is certainly a hard blow for the parents, the children themselves are definitely better off as it is. With all our readers, we extend our deepest sympathy to the bereaved parents and older brother, who mourn the loss of the three youngest children of the family.

Loan Over Top-- Reaches New High

LIONS CLUB MEETING Raymond Over Top

The Raymond Lions Club held their regular meeting in the Sugar Bowl, on Mon. Nov. 2nd at 7.30 p.m. with 22 members and 2 visitors present. "Oh Canada" was sung and prayer was offered by Lion Don Wilde.

Community singing was enjoyed by the members assisted at the piano by Roi Stone. The Club appreciated Roi at the piano as it helped considerably in the singing, and hoped that he would come again.

Nov. 25 and 26 were the dates announced for the Carnival and arrangements were left in the hands of the committee appointed.

The Club decided to purchase a \$50.00 Bond.

Lion Jim Weaver then introduced Reinhold Thur who entertained the club with a talk on hobbies. Some of Reinhold's hobbies are Wood Carving, Oil Painting, Tanning, Song Writing and Poetry. Some of his work was exhibited to the members, which were exceptionally good.

Roi Stone then played a Piano solo but the boys wanted more so Roi played a second number. The Club thanked Roi and Reinhold for assisting with the program.

The meeting closed by singing the National Anthem.

Manager T. Geo. Wood and F. R. Taylor of the Agricultural Department of the Sugar Company are in Idaho this week on company business.

Teachers Convention for Southern Alberta is in session in Lethbridge now, having opened yesterday and closing tonight. Quite a number of the local teachers are in attendance.

Complaints are heard of destruction wrought in sheep herds and other damage by stray dogs, besides being a public nuisance. A good dog is an asset, but most of these that cause the trouble are just dogs.

BANK OF MONTREAL

Canada's oldest banking institution—the Bank of Montreal—will next Tuesday observe the completion of 125 years of service to the people of Canada. Founded in 1817, half a century before Confederation, the bank is today a nationwide institution with branches from coast to coast.

When the Bank of Montreal came into being a century and a quarter ago, life in Canada was a rather primitive affair. In those days, travel was by stage-coach and ox-cart, by canoe and sail-boat. No steamship had ever crossed the ocean and the voyage by sailing-ship across the Atlantic, even under favourable conditions, often took 3 months to accomplish. There were no railways, and electricity and the telegraph were unknown.

In 1817, Canada as such did not exist. The country consisted of a few thinly-settled colonies, whose population totalled something less than 400,000. Montreal, the chief trading centre, had a population of less than 20,000.

Ottawa, Nov 5, 1942
Raymond Recorder:

Here is the latest information on the Victory Loan before you go to press.

Canada's third Victory Loan passed its minimum objective of \$750,000,000 last night with subscriptions totalling \$772,281,300. The provinces of Manitoba, British Columbia, New Brunswick, Quebec, Nova Scotia and Alberta topped their quotas and went after all they can get in the final three days of the campaign.

WEDDING BELLS DUNCOMBE—OLER

Walter, son of Mr. and Mrs. L. B. Duncombe, and Lucy Oler, twin sister of Mrs. Carl Allred were united in marriage last Saturday evening in Lethbridge with Bishop C. Frank Steele of the Lethbridge ward officiating. Mr. and Mrs. Carl Allred accompanied the newlyweds, and after the ceremony, all four young people went to Calgary for a short trip.

Walter has been working as a machinist in the Sugar Factory for the past couple of years and is now enlisting in the active forces, endeavoring to join the Army Service Corps. The newlyweds will make their home in Calgary if Walter is posted there for service. The best wishes of the community are extended to the young couple for a long and happy married life.

Y. T. SHORTS

Hello again! This is your Y. T. Reporters inviting you to another get-together with us.

Indoor hockey, the game the boys get such a kick out of was introduced to the girls Monday evening. Although we have never seen the boys play, we are sure that Velma's drive is just as powerful as any Bill might let loose, and Katherine as goalie is really terrific. However, the girls are of the opinion that a bigger stick than a broom handle would prove much more effective.

Last Monday instead of our regular Volley-ball game, there was a basketball game between the high school boys and the boy's class of the Youth Training. They proved to be very evenly matched teams as they saw-sawed to a close finish. The game ended 47-56 for the Y. T. basketball team.

As you all know, Bill will be leaving for the Air Force shortly. Before he goes we are planning on having an open house night and dance to which everyone is invited. There will be a very small charge to help pay for the music. As our plans are not yet complete, we will let you know more definitely next week.

Well folks, we have kept you long enough so will quit now hoping to see you Monday night at 7 p.m.

NO TIME FOR PICNICS

In a midwestern city recently, young Lieut. William M. Bower, one of the Hollywoodized heroes who bombed Japan with Jimmy Doolittle, was principal speaker at a luncheon club.

He was there on the Treasury Department's grand tour of good time; Well, it's no picnic R.A.F.-ers, Commanders and young American Eagles. By the time they got to Cleveland they were surfeited with parades, super-glamorous night clubs and cocktailing debutants.

Before calling on Lieut. Bower the luncheon club proceeded to an order of business, a profound discussion concerning a suitable location and date for the annual picnic. When it came time to speak, Bower dumped his set address and said exactly what was welling up in his heart.

"A matter of major importance to you right now," he said, "is a picnic. You wonder where you should go and what you

should do in order to have a good time; Well, it's no picnic out where I've been and where your sons are. This is no time for good times, I'm ashamed of myself for being here instead of out there where I belong and where I wish to God I were. I can't understand you. Don't you realize we're in a war—a war we can lose?"

When he finished every man was on his feet cheering. Would to God that somebody could do those are fanning higher and that sort of job nationally. The fires of a war we can look like much of a setting for prayer meeting, a complete burning of battle stations, a quarters mark—of preparation,

calling off of everything, while we face the national problem of life or death.

And what are we doing? In our national capital we see the unbelievable vision of our War President taking his eye off the ball to mix into New York State politics. We see a Congress which has reached a new low in personal vote-fishing by hedging and postponing matters vital to the war effort.

We see certain units of labor permitting strikes in defense of their jobs despite the solemn pledge of their leaders that there would be no more strikes for the duration.

Today we're at the three-quarters mark—of preparation,

HELPED ORGANIZE TRADING

Besides providing a medium of exchange such as had hitherto been lacking, the bank nurses for the country and did much along the early enterprising of international as well as to straighten out the difficult interurban trading.

In the achievement of this one of the most important factors was the creation of the branch banking system, which was a part of the bank's policy

not fighting. We've passed out of promises. But when do we a lot of medals and made a lot GO? —Bill Cunningham in The Boston Herald.

from its inception. It had established itself in modest rented premises only two weeks when it opened an agency at Quebec City. Eight months later, in June of 1818, agents were appointed in Upper Canada at Kingston, which was then important as a garrison town, and at York, as Toronto was then known, which with a population of 1,000, was an outpost for lumbering and the fur trade—industries which formed the only basis of the export business of the country.

Thus it was everywhere throughout the country. As the years went on and settlement spread out, the bank opened branches to facilitate the agricultural development of the country, its manufacturing industries and its general commerce.

T. K. Roberts and his son Gordon were in Calgary Monday where Gordon enlisted in the R.C.A.F. He will report for duty right away.

HOLD HIGH THE TORCH OF FREEDOM

A Fighting BIRTHDAY

OUR 125TH ANNIVERSARY

1817 * 3rd NOVEMBER * 1942

Glorious deeds for humanity have brightened the years of the century and a quarter through which the Bank of Montreal has lived and served Canada. Sordid deeds of treachery and tyranny cannot detract from the record of courage, faith and achievement made by democratic, freedom-loving nations and peoples.

Canada, in the 125 years of the Bank's existence, has grown from a pioneer colony to a state great among nations in wealth, world-wide activities and influence.

Born when Canada was still a wilderness, with here and there a town, the Bank of Montreal has marched, worked and fought beside Canadians of all generations since 1817, assisting in every field of endeavour to build and preserve the nation.

As on our 100th Birthday, in 1917, we now find Canada, together with her sister dominions and her allies, fighting with all her strength, but confidently, for freedom and all that freedom holds.

We re-dedicate on this our 125th Birthday all our accumulated experience, knowledge, technical skill and financial strength to the service of Canada and her citizens.

ALWAYS SERVING CANADA

When the Bank of Montreal began business on November 3, 1817, the only transportation in Canada was provided by horse, wagon, stagecoach, canoe and river packet. There was no means of communication, excepting letters delivered by courier. There was no common currency.

In 1942, the picture of Canada presents a modernly equipped nation with gigantic industries, networks of railroads and motor highways, great steamship lines, continental airlines,

instantaneous communications between all parts of the country and with all parts of the world, and a stable system of banking which gives wings to commerce.

In this picture, builded into it for twelve and a half decades, generation after generation, stands the Bank of Montreal, now with hundreds of branches, strong with youth, experienced with age—still serving Canada, in this latest time of crisis.

SABOTAGE IN THE COW BARN

In hundreds of dairy herds in Southern Alberta the saboteur cows are as busy as ever eating feed and using up labour for which they never pay. In peace time that is serious but in war time it is a crime. We have heard and read of boarder cows for years and very little has been done about their elimination. Now that labour is becoming very scarce there is an added incentive to rectify this situation.

What is a boarder cow? She is a cow that does not pay her way but lives by the efforts

of her stable mates or the kindness and generosity of her owner. She consumes practically as much feed, and requires just as much labour as her profitable neighbours. Where must the line be drawn? That of course depends on the value of the product, the cost of feed, labour, and other expenses. Many estimates have been made and it may be generally agreed that a cow should produce at least 150 pounds of butterfat equivalent to about 4000 pounds of milk per year to pay her way. When we consider that that is about the average for this province it must be realized that a large proportion of the cows must be boarders.

An experience of many people who have practised culling for the first time is that even after they have gotten rid of some of their cows they still get as much milk as ever. The explanation was that they gave more feed and attention to the remaining cows and the cows responded with more milk. This can happen if the cows have the ability to produce more milk but have only lacked the feed required for such production.

There seems to be no time like the present to check up on your cow and do some culling. Even relatively poor cows have a fairly high value for beef right now. Furthermore, we are told that there is a shortage of meat and at such a time almost any kind of cattle beast is in demand. But the best reason of all is to cut down labour requirements without seriously reducing total production of milk.

Memorial Service

T. Ivan Davis was in Hill Spring Sunday, where memorial services were held for his son Arthur, a member of the R.C.A.F. who was killed in action. Others from here attending the services were L.L. Harter, Scoutmaster and High School Teacher of deceased who knew him exceptionally well, and Mr. and Mrs. S. B. Smith who lived in Hill Spring for a number of years and are well acquainted with the Davis family. The Davis family lived in Raymond for a number of years before moving to Hill Spring and are well remembered by Raymond old-timers.

The Safest Way to Invest Your Money

VICTORY BONDS REPAY ... Every Dollar You Invest!

When you buy Victory Bonds you are laying up for yourself the best of all investments, for back of each one is your country's solemn promise that every dollar you invest in Victory Bonds will be repaid to you in full, plus a fair rate of interest. You can borrow against them, and they are readily saleable when you need the cash. And that solemn promise of repayment in full is backed by all the vast resources of the Dominion of Canada.

When the war is over, you will want to buy all the things we must deny ourselves now. Then, your Victory Bonds will give you the money to buy all these—and your purchases will provide new employment for our boys when they come home again.

What's your share of the savings job? Well, the average Canadian would have to lend to Canada to meet Canada's need \$1 in every \$5 of income left after taxes and compulsory

savings have been collected. But the average may not fit your case. Your own circumstances are distinctly your own. You may be able to do better both out of your current income and out of your accumulated savings in the bank—or you may not be able to reach the average. Your share of voluntary savings is every dollar you can possibly spare.

HOW TO BUY

Give your order to the Victory Loan salesman who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Or you can authorize your employer to start a regular payroll savings plan for you. Bonds may be bought in denominations of \$50, \$100, \$500, \$1,000 and larger. Salesman, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order form.

CANADA'S FIRST REAL MONEY

At that time, Canada had no currency of its own, and not only American, British and French, but Spanish and Portuguese money was in circulation. Naturally, the ratios of exchange into colonial money of account were subject to frequent variations, and as a consequence, domestic trade was carried on principally by barter, and international business was on a very unstable basis. It was in an endeavour to overcome these chaotic conditions that nine Montreal merchants banded themselves together to establish the Bank of Montreal. Opening its doors on November 3rd, 1817, the young bank immediately set about the business of giving some semblance of organization to the financial life of the country, and its first task was the issue of paper currency—that is, the bank's own bills in small denominations—and later, copper coins. Specimens of this currency—which was in reality the first Canadian money—are preserved in the bank's museum in Montreal.

CARD OF THANKS

We desire to express our heartfelt thanks and appreciation to all of the people and neighbors who so kindly assisted us during our recent bereavement. To those who furnished cars, flowers, and who assisted in any way, and especially to Mr. and Mrs. Reithmen who did so much, we are indeed grateful.
Mr. and Mrs. John Gergley.

Four of the six Comptometer operators who have been at the Factory for the past month left for their homes in Calgary last Sunday, the other two planning to go this coming Sunday.

The funeral of Mrs. Agnes Morrow, mother of Mrs. H. Christie, was held in Brooks, on October 21st, in the United Church. Those attending the services from Raymond besides the Christie family, were: Messrs R. Fansett, L. McPhee, Mrs. Gardner, Mrs. F. C. Hall and J. D. Hall.

Here is the Blue Print

THE CO-OPERATIVE MOVEMENT IS DEMOCRACY IN BUSINESS. AS IT DEPENDS ON HUMAN AGENCIES TO CONDUCT IT, IT CAN NEVER BE PERFECT, BUT IT IS A LONG WAY AHEAD OF THE CAPITAL STOCK COMPANY AND THE MODERN TRUST CORPORATION.

CO-OPERATION DOES NOT EXIST IN LAW OR IN FORMULA. IT EXISTS IN THE MINDS AND HEARTS AND PURPOSES OF THE PEOPLE. IT IS FOUNDED ON MUTUAL CONFIDENCE AND TRUST. WITH THE DEVELOPMENT OF THESE IDEALS PEOPLE CAN MAKE A SUCCESS OF CO-OPERATION.

THE ALBERTA WHEAT POOL IS A CREATION OF THE FARMERS OF THIS PROVINCE. IT HAS DEMONSTRATED ITS EFFICIENCY AS A BUSINESS ORGANIZATION AND ALSO ITS ADHERENCE TO THE CO-OPERATIVE PRINCIPLES. TO MAKE IT A GREATER SUCCESS THAN EVER, IT NEEDS THE INTEREST AND SUPPORT OF A GREATER NUMBER OF THE FARM PEOPLE OF THIS PROVINCE.

Alberta Pool Elevators

A TRANSPORTATION TRIUMPH

This picture shows the Hon. Donald A. Smith, vice-president of the Bank of Montreal, driving in at Craigellachie, B. C., in November, 1885, the golden spike to complete the line of Canada's first transcontinental railway—The Canadian Pacific. Effectively sealing the Confederation of 1867 by a continuous ribbon of steel from Montreal to Vancouver, the undertaking was made possible through the financial backing of the Bank of Montreal from the start. Through this support, the pioneer railway builders were able to overcome what appeared to be insuperable obstacles and to complete a project that has been recognized as the most important in the opening-up and development of Canada's West. Donald Smith, who was later knighted and finally elevated to the peerage to become Lord Strathcona, was elected president of the Bank of Montreal in 1887 and honorary president in 1905.
